

ClimbingQTs LGBTQ+ Training and Education

LGBTQ+ inclusion in the outdoors and sports is important work. If you're reading this, chances are you already know why, but if you've stumbled across this by chance, here are some good reasons why it's time to invest in education and awareness training to support LGBTQ+ affirmative spaces in sports and recreation spaces:

- 54% of trans folk don't participate in sport because of their gender identity.
- Many sports competitions and events are not trans and gender diverse inclusive.
- There is little to no representation of LGBTQ+ identities in outdoors media.
- Many gyms and sporting spaces are still cis straight white male dominated spaces.
- LGBTQ+ people are underrepresented in leadership and role model positions.
- Participation often involves ongoing costs and purchase of expensive equipment.

Our work is led by Riley Edwards (they/them), a queer, non-binary rock climber, outdoor enthusiast, LGBTQ+ advocate and educator and co-founder of ClimbingQTs based in Naarm/Melbourne, Australia. They use their years of experience and expertise from working in Diversity & Inclusion Consultation and Education to support the trans and gender diverse community in sports and recreation. Riley is a member of Proud2Play's Trans Advisory Board and has over seven years experience producing events and programs for community. They believe in a solution focused, community driven, strategic approach to cultural change in order to create affirmative environments for LGBTQ+ folk in sports and the outdoors.
